
Re: Hassle-Free Homework® Syndicated Newspaper Column

Letter to the Editor:

As school systems become more ‘standardized,’ parents are looking for more holistic approaches to the challenges their children face as students. They need specific answers to their specific questions about their unique child.

That’s exactly what Dr. Yvonne Fournier offers in her syndicated column, Hassle-Free Homework®.

Each column includes an assessment of the situation and a “What To Do” section that offers parents real solutions to their questions. There’s compassion, insight and wisdom in each article.

Dr. Yvonne Fournier has been a leader in the field of education counseling for almost thirty years. For more than twenty of those years, she has written her column based on questions she receives, not only from parents but also from teachers.

This column has been helpful to thousands of parents and teachers over the years but this community has not had the benefit of reading her column in your newspaper.

I urge you to do this community a great service and add Dr. Fournier’s column as a regular weekly feature in your newspaper.

For more information on her column, please visit the Hassle-Free Homework® web site at www.hfhw.net.

Again, please add Dr. Fournier’s syndicated column, Hassle-Free Homework® to your newspaper.

Sincerely,
